

# Industry Visits    ISAAT2008

The participants are invited to attend the visit to a local leading manufacturing company in the Awaji Island on Friday, October 3rd. In this time, we want to invite you to the Mitsu Seiki Co. Ltd.

The Mitsu Seiki Co. Ltd. is in local Awaji Island, 70 years or more passes from his establishment, and the employee is a medium sized company of 200 people or less. But it is an enterprise that is skillful in a state-of-the-art processing, and a typical, only one enterprise that pursues the limit of accuracy. They are good at the high precision machining and the assembly of minute parts of the chapter in the fields of the knit machine, airlines and space equipment parts, semiconductor-fabrication equipments and the medical equipment parts.

URL: <http://www.mitsu.co.jp/seiki/product.html> (in Japanese)

Note:

The bus will leave at “the Westin Awaji Island” in the morning to take the visitors to the company, and will take them back to the Hotel at around 17:30 or 18:00. Those who are not going to return to the hotel and depart, may have to get off the bus at Shin-Kobe station at around 16:30-17:00. From Shin-Kobe station, it is easy to go to Kansai airport, Shin-Osaka, Nagoya, Tokyo, or other majour cities.

Himeji Castle: Himeji castle was built in 1333 and fortunately the castle has never been involved with the evil of ill war. The castle is well-preserved building and it is a good representative of all the castles in Japan. In 1992 Japan signed the Agreement of the World Heritage list, and Himeji castle was recommended for the World Heritage in Japan.
